

## **Script to Refer to when Contacting Legislators**

Hello. My name is \_\_\_\_ and I would like to speak with Senator/Representative (Insert Name Here) regarding the 911 Emergency Telecommunicator legislation.

As you know, our 911 Emergency Telecommunicators are our "First" First Responders. Our laws and how they are recognized by the Commonwealth are antiquated and do not truly reflect nor honor the duties they perform daily.

We must update our laws to reflect the vital public safety role they perform, as well as provide them inclusion in the Heart Law for their well-being and update their Group in the Massachusetts Retirement system if we are truly going to make an effort to retain the heroic personnel we currently have as well as recruit for the future.

Will you join me in support of these important pieces of legislation by co-sponsoring bills:

- 911 Reclassification to Public Safety : H.2667/S.1586
- 911 Retirement Reclassification to Group 2: H.2665/S.1730
- 911 Inclusion on the Heart Law: HD.3403/S.1673

Thank you and I look forward to hearing your response,
